

Celebrating 21 Years of Tameside Local History Forum

2. An Umbrella Organisation Bringing Together People across Tameside with a focus on Local Heritage
Some of the Current & Past Members

We aim to promote the study of archive and source material for social, business and archaeological purposes.

To make sure that such material is well preserved, collated and accessible to all.

We encourage co-operation between related historical and civic societies and statutory authorities and act as a point of contact for them.
